APPLICATION FOR CLEARING, FILLING AND GRADING PERMIT

This permit application is in conjunction with Section 203-7-A of the Town Code for filling and grading of an area between 10,000 square feet and 43,560 square feet (one acre), and Section 249-58-R-1, for clear cutting an area between 21,780 SF (1/2 acre) and 43,560 SF (one acre). Areas less than the referenced thresholds do not require a permit and areas greater than one acre require site plan approval from the Planning Board and/or require permitting and approval under the NYSDEC General Permit for Construction Activities and MS-4/(Town) approval.

Clearing: _____ Filling: _____ Grading: _____ (Check all that apply)

Permit App. No.: _____ Permit No.: _____ Section: _____ Block: _____ Lot: _____

Date Examined: _____ Date Approved: _____ Date Disapproved: _____

If yes, Identify: _____

Proposed Start Date: _____ Proposed Completion date: _____

Owner to provide TWO (2) copies of the following: (Check is Provided):

1. () Drawing or tax map showing the boundaries of the parcel, and any/all existing utilities (including location of well and septic).
2. () An Erosion and Sediment Control Plan, including areas proposed to be filled and graded. Plans must identify the type of typical vegetation to be removed/eliminated by the proposed fill activity, along with the planned activity/stabilization of newly placed fill, including compaction requirements of the disturbed material and any plantings proposed.
3. () Documentation as to the type and original location of fill material. Certification to this effect from a Licensed Professional Engineer may also be required at the discretion of the Commissioner of Public Works or Building Inspector.
4. () All fill must be free of C&D (Construction and Demolition Debris), Petroleum Products, Chemicals, Pesticides and other Hazardous Materials. Field testing of the fill may be required (at the discretion of the Commissioner of Public Works and/or Building Inspector) if hazardous materials are found or suspected. In the event that fill testing is required, the Permittee will be responsible to submit a Testing Plan to the Town for approval. All costs associated with the above will be the responsibility of the Permittee.
5. () Drainage computations prior to site disturbance and after site disturbance (may be required).
6. () Nature of proposed activity:

*Please note: **No work can start without a Permit***

- () Clearing of vegetation prior to filling _____ Square Feet
- () Filling _____ Cubic Yards
- () Grading _____ Square Feet
